

## **Hospitality**

### **Description:**

The Hospitality volunteer only works at home meets. They are responsible for distributing bottled water to the coaches and volunteers on both teams during the meet. Anyone that looks like a volunteer – coaches, timers, kids pushers etc. all get thirsty!

The hospitality volunteer should arrive before the meet begins, and confirm where the water bottles and ice are located. They can prepare a cooler with ice and place water bottles inside to chill. There is a hand-held plastic basket that is also filled with ice and used to carry bottles of water around the pool deck.

### **Example:**

To achieve good coverage of the pool deck consider a circular path, starting with our team's coaches then walking clockwise through the starter then the kid pushing and blocks area. Continue around the back side of the diving well and to the visitors coach area. Don't forget the announcer up on the raised deck. Continue through the visitor's area and around back to the club house.

### **Tips:**

#### **Length of time commitment at the meet:**

5-10 minute rounds every 20 minutes or so at the meet.
